EuroLitter™

Available in baby powder scent, lavender scent and unscented

Absorbs liquids and odours instantly

One bag lasts up to twice as long as the competition

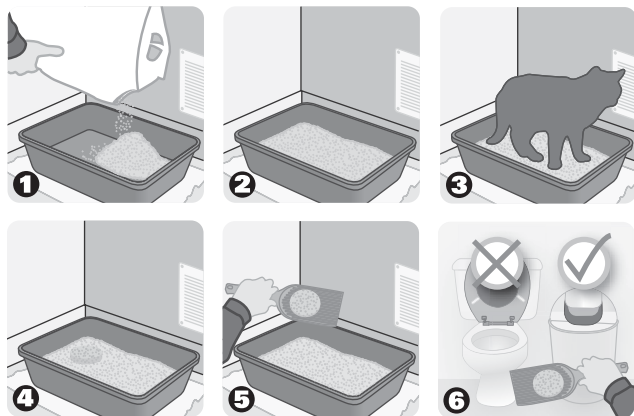

HIGH QUALITY · ODOUR CONTROL · EASY TO USE · CLUMPING SCOOPABLE CAT LITTER

THE LITTER THAT IS QUICK AND EASY TO USE!

Fill a clean litter pan with EuroLitter™ up to a level of 10 to 12 cm (4 to 5 inches). To maintain the level in the pan, replace the amount of litter thrown away.

Remove clumps daily using an appropriate scoop.

Dispose of clumps in the garbage, NEVER IN THE TOILET.

Instructions available in 15 languages

LOOK NO FURTHER: EUROLITTER™ IS AN UNBEATABLE VALUE!

ODOUR CONTROL: EuroLitter™ naturally controls odours. It comes in three fresh scent options, helping you keep the air surrounding the pan and around your house fresh.

INSTANT CLUMPING: EuroLitter™ clumps so quickly you virtually never need to empty and clean a pan soiled by liquids sticking to its sidewalls or sinking into the bottom. The clumps it produces are so strong they won't fall apart like they do with many other leading brands of litter. It absorbs moisture quickly and effectively, leaving the rest of the litter clean, dry and untouched.

LONG-LASTING AND SAFE: The irregular grain-size of EuroLitter™ helps it absorb liquids quicker than other leading brands of cat litter. This helps you use less material and save time and money. The natural mineral has no silica additive and is not harmful to pets or their owners. EuroLitter™ is made of natural sodium bentonite.

COMPOSITION

Nature of product:
Pure sodium bentonite

Granulation: Fine

Moisture:
0% / dry product
