DAILY HEALTH NUTRITION FOR HEALTHY CATS

FELINE HEALTH NUTRITION

EACH CAT DESERVES HER OWN HEALTH NUTRITION

Each cat has specific needs depending **on her age, her lifestyle, and some individual characteristics**.
Precise nutrition is essential for maintaining her health and well-being throughout her life.

Royal Canin has developed Feline Health Nutrition, a wide range of products **to meet the daily requirements of each individual cat**.

1ST AGE &
2ND AGE

A unique programme
taking into account
kittens and their
mothers!

LIFESTYLE
Home life
& Active life

The perfect balance
of energy whatever
her lifestyle!

REGULAR

Health nutrition for
sterilised adult cats
and adult cats without
specific needs.

FELINE
PREFERENCE

Even for
the fussiest cats!

SENIOR AGE

To be healthier
longer!

DAILY HEALTH NUTRITION ALSO IN WET!

Available in different textures :

GRAVY

JELLY

LOAF

Babycat milk

From birth to weaning - 1st age milk

[300g box: 3 x 100g sachets]

INGREDIENTS

COMPOSITION

Milk proteins, milk fat, vegetable oils (including arachidonic acid-rich oil), whey protein, fish oil (source of DHA), minerals, fructo-oligo-saccharides.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 25000 IU, Vitamin D3: 1500 IU, E1 (Iron): 100 mg, E2 (Iodine): 4 mg, E4 (Copper): 15 mg, E5 (Manganese): 80 mg, E6 (Zinc): 230 mg, E8 (Selenium): 0.43 mg, Taurine: 2.5 g - Antioxidants.

ANALYTICAL CONSTITUENTS

Protein	34%
Fat content	39%
Crude ash	6%

Week 2	6	5	10	3/10	5/10
Week 3	5	10	15	5/10	8/10
Week 4	5	10	15	5/10	8/10

HARMONIOUS GROWTH

For steady, harmonious growth, the composition of BABYCAT MILK is as close as possible to queen's milk.

DIGESTIVE HEALTH

BABYCAT MILK contains carefully selected ultra-digestible proteins, and has a lactose content very close to that of maternal milk. It is particularly suitable for the kitten's digestive system, because it does not contain starch, (kittens don't secrete enough enzyme to digest starch). The kitten's intestinal flora develops gradually over several weeks. The addition of probiotics (FOS) contributes to promoting digestive health.

INSTANT MILK

With its exclusive formula, BABYCAT MILK dissolves instantly and completely, with no sediment, creating a totally homogenous formula. (see the utilisation guide).

DHA

The kitten's nervous system continues to develop after birth. DHA naturally present in maternal milk supports the development of cognitive function.

[Available in 400g - 2kg - 4kg]

Between 4 and 12 weeks after birth, the natural immunity acquired from the mother's colostrum decreases gradually. **MOTHER & BABYCAT** helps support the 1st age kitten's natural defences thanks particularly to a patented* complex of antioxidants including vitamin E.

*France, patent No EP1146870

Adapted kibble that can be easily rehydrated to facilitate the transition from milk to solid food.

Enhanced digestive tolerance thanks to highly digestible protein (L.I.P.*) and prebiotics (including FOS).

*Protein selected for its very high digestibility

DHA helps support the kitten's cerebral development during gestation and lactation.

COMPOSITION

Dehydrated poultry protein, animal fats, maize flour, rice, vegetable protein isolate*, hydrolysed animal proteins, yeasts and parts thereof, fish oil, beet pulp, vegetable fibres, soya oil, minerals, fructo-oligo-saccharides (0,35%), hydrolysed yeast (source of manno-oligo-saccharides), yeasts extracts (source of betaglucans), marigold extract (source of lutein).

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 25500 IU, Vitamin D3: 1000 IU, Vitamin E: 600 mg, E1 (Iron): 31,8 mg, E2 (Iodine): 3,2 mg, E4 (Copper): 9,8 mg, E5 (Manganese): 41,4 mg, E6 (Zinc): 118,1 mg, E8 (Selenium): 0,04 mg - Technological additives: Clinoptilolite of sedimentary origin: 5 g - Preservatives - Antioxidants.

*L.I.P.: protein selected for its very high assimilation.

Home Life INDOOR²⁷

Indoor adult cats

[Available in 400g - 2kg - 4kg - 10kg]

STOOL ODOUR REDUCTION

A lack of exercise may lead to a slower intestinal transit and smelly stools. **INDOOR 27®** contains highly digestible protein (L.I.P.*) and helps reduce the quantity and odour of stools.

*L.I.P.: protein selected for its very high digestibility

MODERATE CALORIE

A moderate fat content adapted to the lower activity of indoor cats.

HAIRBALL REDUCTION

Helps stimulate the elimination of ingested hair thanks to specific fibres including psyllium.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, wheat, maize, vegetable protein isolate*, animal fats, hydrolysed animal proteins, wheat flour, vegetable fibres, beet pulp, yeasts and parts thereof, soya oil, minerals, fructo-oligo-saccharides, fish oil, psyllium husks and seeds (0.5%).

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 13500 IU, Vitamin D3: 700 IU, E1 (Iron): 42 mg, E2 (Iodine): 4.2 mg, E4 (Copper): 13 mg, E5 (Manganese): 55 mg, E6 (Zinc): 164 mg, E8 (Selenium): 0.09 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

*L.I.P.: protein selected for its very high assimilation.

Home Life INDOOR Appetite Control

Indoor cats - Tendency to overeat

[Available in 400g - 2kg - 4kg]

OVEREATING CONTROL

Indoor cats have a more sedentary lifestyle and may tend to overeat. **INDOOR APPETITE CONTROL** helps indoor cats regulate their appetite in a natural way thanks to a balanced content of protein and fibres. It contributes to maintaining ideal weight.

STOOL ODOUR REDUCTION

Highly digestible protein helps reduce the quantity and odour of stools.

HAIRBALL REDUCTION

Helps stimulate the elimination of ingested hair thanks to specific fibres including psyllium.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, maize, vegetable fibres, wheat, vegetable protein isolate*, animal fats, hydrolysed animal proteins, maize gluten, beet pulp, yeasts and parts thereof, minerals, soya oil, fructo-oligo-saccharides, fish oil, psyllium husks and seeds (0.5%).

ADDITIVES (PER KG)

Home Life INDOOR Long Hair

Indoor long-haired cats

[Available in 400g - 2kg - 4kg -10kg]

HAIRBALL REDUCTION

Long-haired cats living indoors are particularly prone to hairballs. **INDOOR LONG HAIR** helps stimulate intestinal transit and the elimination of ingested hair in a natural way thanks to specific fibres including psyllium.

STOOL ODOUR REDUCTION

Highly digestible protein helps reduce the quantity and odour of stools.

SKIN & COAT HEALTH

Contains specific nutrients including EPA and DHA to help maintain a healthy skin and a shiny coat.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, maize, rice, vegetable protein isolate*, wheat, animal fats, hydrolysed animal proteins, wheat flour, vegetable fibres, soya oil, beet pulp, minerals, yeasts and parts thereof, fish oil, fructo-oligo-saccharides, psyllium husks and seeds (0.5%), borage oil.

VITALITY COMPLEX

To help cats face the first signs of ageing, **INDOOR 7+** is enriched with targeted nutrients including green tea polyphenols, vitamin C, EPA and DHA.

STOOL ODOUR REDUCTION

Highly digestible protein helps reduce the quantity and odour of stools.

RENAL HEALTH

Helps support renal health thanks to an adapted phosphorus level.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

Active Life OUTDOOR

Active outdoor cats

[Available in 400g - 2kg - 4kg - 10kg]

ACTIVITY SUPPORT

Cats with access to the outdoors may need higher calorie nutrition. **OUTDOOR** meets the energy requirements of active cats.

SKIN BARRIER

Contains a specific combination of nutrients to support skin barrier associated with a complex of antioxidants.

JOINT HEALTH

Contains a combination of joint supporting nutrients and EPA and DHA.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, maize, animal fats, wheat, hydrolysed animal proteins, vegetable protein isolate*, maize gluten, yeasts and parts thereof, beet pulp, fish oil, minerals, copra oil, soya oil, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein), hydrolysed crustaceans (source of glucosamine), hydrolysed cartilage (source of chondroitin).

ADDITIVES (PER KG)

Vitamin A: 32000 IU, Vitamin D3: 900 IU, Vitamin C: 230 IU, E1 (Iron): 38 mg, E2 (Iodine): 3,8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 149 mg, E8 (Selenium): 0,07 mg
Sensory additives: tea extract (source of polyphenols): 0,6 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

Active Life OUTDOOR 7+

Active outdoor cats over 7 years old

[Available in 400g - 2kg - 4kg - 10kg]

VITALITY COMPLEX

To help cats face the first signs of ageing, **OUTDOOR 7+** is enriched with targeted nutrients including green tea polyphenols, vitamin C, EPA and DHA.

ACTIVITY SUPPORT

High calorie content to meet the energy requirements of active cats.

RENAL HEALTH

Helps support renal health thanks to an adapted phosphorus level.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Maize flour, dehydrated poultry protein, maize, animal fats, barley, maize gluten, vegetable protein isolate*, hydrolysed animal proteins, beet pulp, soya oil, fish oil, yeasts and parts thereof, minerals, hydrolysed yeast (source of manno-oligosaccharides), borage oil, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

ADDITIVES (PER KG)

Vitamin A: 32000 IU, Vitamin D3: 900 IU, Vitamin C: 230 IU, E1 (Iron): 38 mg, E2 (Iodine): 3,8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 149 mg, E8 (Selenium): 0,07 mg - Sensory additives: tea extract (source of polyphenols): 0,6 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

Regular APPETITE CONTROL Sterilised

Neutered adult cats - Tendency to beg for food

[Available in 400g - 2kg - 4kg - 10kg]

HUNGER REGULATION

After neutering, certain cats are less able of regulating their food intake. **APPETITE CONTROL STERILISED** contains a high level* of specific fibres which both satisfy the appetite of cats with a tendency to beg for food and contribute to naturally reducing the feeling of hunger.

* Compared to a high quality maintenance food.

WEIGHT MANAGEMENT

Helps limit the risk of excess weight gain thanks to a moderate level of fat.

URINARY HEALTH

Helps support a healthy urinary system by providing an adequate mineral balance.

ENRICHED WITH L-CARNITINE

L-Carnitine is involved in healthy fat metabolism.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, maize, vegetable fibres, vegetable protein isolate*, wheat, maize gluten, hydrolysed animal proteins, animal fats, rice, beet pulp, yeasts and parts thereof, minerals, soya oil, fish oil, fructo-oligo-saccharides, psyllium husks and seeds.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 19000 IU, Vitamin D3: 700 IU, E1 (Iron): 36 mg, E2 (Iodine): 3.6 mg, E4 (Copper): 11 mg, E5 (Manganese): 47 mg, E6 (Zinc): 140 mg, E8 (Selenium): 0.06 mg, L-carnitine: 200 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

*L.I.P. : protein selected for its very high assimilation.

OPTIMAL NUTRIENT PROFILE

To meet all the requirements of adulthood, cats need nutrition of a high quality. **FIT 32** contains the right level of beneficial nutrients to maintain adult cats in good health.

HEALTHY WEIGHT

Adjusted calorie content to help maintain the ideal weight of adult cats.

HAIRBALL REDUCTION

Helps stimulate the elimination of ingested hair thanks to specific fibres.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

Regular SENSIBLE³³

Sensitive adult cats

[Available in 400g - 2kg - 4kg - 10kg - 15kg]

OPTIMAL DIGESTION

Some cats have digestive sensitivity leading to soft stools. **SENSIBLE 33** contains an exclusive combination of nutrients to support optimal digestive security (L.I.P.*) and prebiotics for a balanced intestinal flora.

*L.I.P.: protein selected for its very high digestibility

HIGH PALATABILITY

Three different kibble shapes and carefully selected flavourings to stimulate food intake in sensitive cats.

CONCENTRATED ENERGY

For cats requiring a higher energy density.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, animal fats, maize, vegetable protein isolate*, dehydrated pork protein, wheat flour, wheat, hydrolysed animal proteins, maize gluten, yeasts and parts thereof, beet pulp, minerals, fish oil, vegetable fibres, soya oil, fructo-oligo-saccharides.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 18500 IU, Vitamin D3: 1000 IU, E1 (Iron): 38 mg, E2 (Iodine): 3.8 mg, E4 (Copper): 12 mg, E5 (Manganese): 50 mg, E6 (Zinc): 150 mg, E8 (Selenium): 0.1 mg - Technological additives: Clinoptilolite of sedimentary origin: 5 g - Zootechnical additives: Ammonium chloride: 5 g - Preservatives - Antioxidants.

*L.I.P.: protein selected for its very high assimilation.

Feline Preference SAVOUR Exigent

Fussy cats - Savour discerning

[Available in 400g - 2kg - 4kg - 10kg]

DUAL SAVOUR SENSATION

Some fussy cats are most attracted by diversity in the bowl. **SAVOUR EXIGENT** contains 2 synergistic kibbles, each of a different formula and texture, to stimulate the natural preference of these cats.

OPTIMAL WEIGHT

Adapted energy content to help maintain the fussy cat at ideal weight.

INDIVIDUAL PREFERENCE

Each cat has a natural preference when selecting food: aromatic profile, savour diversity or by protein level. Royal Canin has developed 3 different formulas to satisfy even the fussiest cats.

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Maize, dehydrated poultry protein, rice, vegetable protein isolate*, animal fats, maize gluten, hydrolysed animal proteins, vegetable fibres, yeasts and parts thereof, minerals, beet pulp, soya oil, fructo-oligo-saccharides, borage oil.

Protein

PROTEIN PREFERENCE

Some fussy cats are most attracted by high dietary protein levels. **PROTEIN EXIGENT** has the ideal protein, carbohydrate and fat balance to satisfy the natural preference of these cats.

KG

OPTIMAL WEIGHT

Adapted energy content to help maintain the fussy cat at ideal weight.

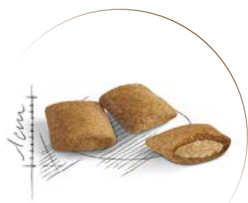

INDIVIDUAL PREFERENCE

Each cat has a natural preference when selecting food: aromatic profile, savour diversity or by protein level. Royal Canin has developed 3 different formulas to satisfy even the fussiest cats.

URINARY
Health

URINARY HEALTH

Formulated to help maintain health of an adult cat's urinary system.

[Available in 400g - 2kg - 4kg]

EXCLUSIVE KIBBLE

In some senior cats, the senses of taste and smell decline with age which leads to lower food intake. **AGEING 12+** helps stimulate the senior cat's appetite with a highly palatable, double texture kibble which is easy to chew.

A patented complex of antioxidants including lycopene and Omega-3 fatty acids to support the body systems through the ageing process.

* France, patent N° EP1146870

Helps support renal healthy function thanks to a moderate phosphorus level.

URINARY
Health

Formulated to help maintain health of an adult cat's urinary system.

COMPOSITION

Vegetable protein isolate*, precooked wheat flour, animal fats, dehydrated poultry protein, rice, maize, vegetable fibres, hydrolysed animal proteins, chicory pulp, minerals, fish oil, soya oil, yeasts and parts thereof, tomato (source of lycopene), fructo-oligo-saccharides, psyllium husks and seeds, hydrolysed yeast (source of manno-oligo-saccharides), hydrolysed crustaceans (source of glucosamine), borage oil, marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

Vitamin A: 19000 IU, Vitamin D3: 700 IU, E1 (Iron): 37 mg, E2 (Iodine): 3.7 mg, E4 (Copper): 11 mg, E5 (Manganese): 48 mg, E6 (Zinc): 145 mg, E8 (Selenium): 0.06 mg - Sensory additives: Tea extract (source of polyphenols): 0.6 g - Preservatives - Antioxidants.

*ROYAL CANIN® "Mother & Baby cat"
**ROYAL CANIN® "Kitten"

1st AGE EASY START

1st AGE EASY START

For 1st age kittens, the «mousse» texture of MOTHER & BABYCAT facilitates the transition to solid food.

INSTINCTIVELY PREFERRED

Formulated to match the optimal Macro Nutritional Profile instinctively preferred by kittens.

IMMUNE SYSTEM SUPPORT

Helps support the 1st age kitten's natural defences.

KITTEN

Kittens up to 12 months old

GRAVY

INGREDIENTS

COMPOSITION

Meat and animal derivatives, cereals, vegetable protein extracts, derivatives of vegetable origin, minerals, oils and fats, yeasts, various sugars.

ADDITIVES (PER KG)

Nutritional additives: Vitamin D3: 175 IU, E1 (Iron): 4 mg, E2 (Iodine): 0.36 mg, E4 (Copper): 2.8 mg, E5 (Manganese): 1.3 mg, E6 (Zinc): 13 mg.

PROVEN EFFECTIVENESS, VISIBLE RESULTS

FELINE CARE NUTRITION

**TARGETED
NUTRITION**
you can rely on

Many different factors lead to sensitivities, which can interfere directly with the cat's health. Scientific studies and Royal Canin's research have demonstrated the essential role of nutrition in health.

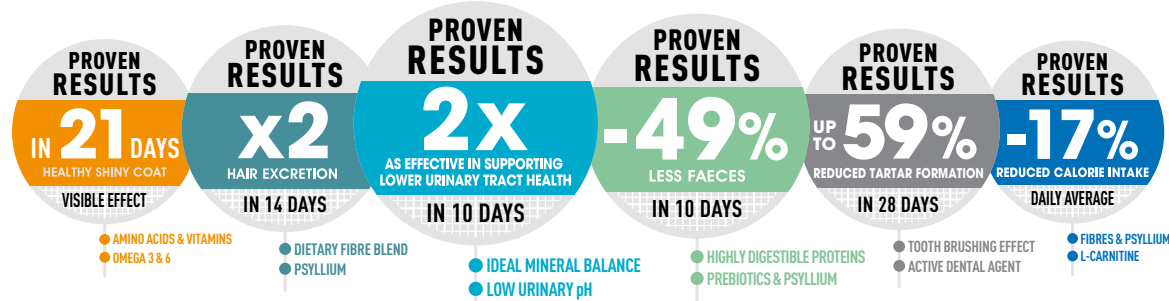

TARGETING AND OVERCOMING CAT SENSITIVITIES

The **FELINE CARE NUTRITION** range has been specially designed by veterinarians and nutritionists to **tackle cats' particular sensitivities**: sensitive to urinary issues, dull coat and sensitive skin, tartar and dental plaque formation, tendency to gain weight, difficulty eliminating hairballs, digestive disorders.

CONCENTRATING ON NUTRITIONAL EXPERTISE WITH PROVEN RESULTS

Formulated from nutrients rigorously selected for their **target action**, **FELINE CARE NUTRITION** clearly **guarantees visible and measurable** improvements within a **given period of time**. **Concentrated expertise for fast action, meal after meal**. These «**6 Intensive Nutritional Formulas**» can be recommended for everyday use or short-term improvement.

PROVEN EFFECTIVENESS, VISIBLE RESULTS.

**HEALTH CARE EXPERTISE
ALSO IN WET!**

HAIRBALL CARE: *Royal Canin internal study, 2014. • Compared to a control feed for adult cats not containing the Hairball Care exclusive complex. • URINARY CARE: *Royal Canin internal study, 2014. • Compared to a maintenance feed for cats. • SPECIFICALLY PROVEN FOR STUPE CRYSALS. • DIGESTIVE CARE: *Royal Canin internal study, 2014. • Compared to a maintenance feed for adult cats. • ORAL CARE: *Royal Canin internal study, 2014. • Compared to a control feed for adult cats not containing the Oral Care active components and measured on the most vulnerable teeth. • LIGHT WEIGHT CARE: *Royal Canin internal study, 2014. • Compared to a control feed for adult cats not containing the Oral Care active components and measured on the most vulnerable teeth. • Compared to a maintenance feed for adult cats.

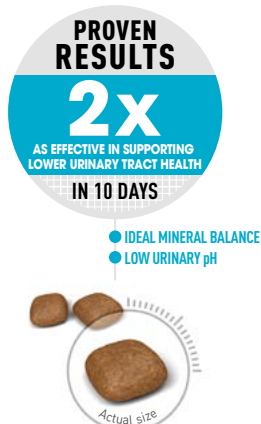

CARE

URINARY

Adult cats - Helps maintain urinary tract health

[Available in 400g - 2kg - 4kg - 10kg]

Urinary crystals can be found even in the urine of healthy cats. Depending on several factors including pH, urinary crystals can be transformed into stones. Nutrition can be an effective way to help reduce the risk of urinary crystal formation.

URINARY CARE is a precisely balanced nutritional formula which helps maintain urinary tract health.

- It maintains a **healthy urine concentration** by regulating the mineral balance and maintaining a low urinary pH, leading to less concentrated urine.
- The exclusive formula creates a urinary environment **less favourable for the formation of urinary stones**.

PROVEN RESULTS

The exclusive use of **URINARY CARE** is effective after 10 days: 2x* reduced risk of urinary stone formation.

*Royal Canin internal study, 2014 - Compared to a maintenance diet for felines - Specifically proven for struvite stones.

SUITABLE FOR A HEALTHY ADULT CAT NOT UNDER VETERINARY SUPERVISION FOR URINARY ISSUES. Should you have any doubt or any questions about your cat's urinary health, please consult your veterinarian.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, maize, vegetable protein isolate*, rice, wheat, animal fats, vegetable fibres, maize gluten, hydrolysed animal proteins, maize flour, minerals, beet pulp, yeasts and parts thereof, soya oil, fish oil, marigold extract (source of lutein).

*LIP: protein selected for its very high assimilation.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 20500 IU, Vitamin D3: 700 IU, E1 (Iron): 40 mg, E2 (Iodine): 4 mg, E4 (Copper): 12 mg, E5 (Manganese): 52 mg, E6 (Zinc): 109 mg, E8 (Selenium): 0.07 mg - Preservatives - Antioxidants.

FEEDING GUIDELINES

24h Recommended daily quantities

Cat's weight	3 kg	4 kg	5 kg	6 kg
IDEAL WEIGHT	45 g	55 g	65 g	74 g
OVERWEIGHT	36 g	44 g	52 g	59 g

Encourage your cat to drink more water. Higher daily water intake results in an increased urine volume and dilution which support urinary tract health in cats.

CARE

LIGHT
WEIGHT

Adult cats - Helps limit weight gain

[Available in 400g - 2kg - 3,5kg - 8kg]

**PROVEN
RESULTS**
-17%
REDUCED CALORIE INTAKE
DAILY AVERAGE

• FIBRES & PSYLLIUM
• L-CARNITINE

Maintaining an ideal body condition and muscle mass is a crucial aspect of a cat's overall health.

WEIGHT CARE is a precisely balanced nutritional formula which helps maintain a healthy body condition.

With several actions:

- Special blend of fibres including psyllium helps to increase the volume of food in the stomach, thus helping to naturally **reduce spontaneous eating**.
- High protein content to help **maintain muscle mass**.
- Low fat content to help **limit weight gain**.

Enriched with **L-carnitine**, involved in healthy fat metabolism.

PROVEN RESULTS

With exclusive use of **WEIGHT CARE**, the calorie intake is reduced by 17%* and the cat's appetite is satisfied.

*Royal Canin internal study, 2006 - Spontaneous daily consumption compared to a similar medium calorie feed for cats.

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, vegetable protein isolate*, maize, vegetable fibres, hydrolysed animal proteins, wheat, maize flour, rice, maize gluten, animal fats, beet pulp, minerals, yeasts and parts thereof, fish oil, psyllium husks and seeds (0.5%), soya oil.

*LIP: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 20000 IU, Vitamin D3: 700 IU, E1 (Iron): 35 mg, E2 (Iodine): 3.5 mg, E4 (Copper): 11 mg, E5 (Manganese): 45 mg, E6 (Zinc): 81 mg, E8 (Selenium): 0.05 mg, L-carnitine: 210 mg - Preservatives - Antioxidants.

CARE

HAIRBALL

Adult cats - Helps reduce hairball formation

[Available in 400g - 2kg - 4kg - 10kg]

Cats spend a large portion of their day grooming, and therefore can swallow large quantities of hair. This ingested hair can become compacted in the digestive tract forming hairballs which are either regurgitated or eliminated through the faeces.

HAIRBALL CARE is a precisely balanced nutritional formula which naturally helps reduce hairball formation.

- The exclusive **HAIRBALL CARE** complex is composed of a specific blend of dietary fibres, including psyllium (rich in mucilage), and insoluble fibres to help naturally stimulate intestinal transit.
- As a consequence, hair swallowed daily can be eliminated in the faeces rather than building up in the stomach and being regurgitated.

PROVEN RESULTS

The exclusive use of **HAIRBALL CARE** is effective after 14 days, doubling* the amount of hair that is eliminated naturally in the faeces.

*Royal Canin internal study, 2013 - Compared to a control feed for adult cats not containing the Hairball Care exclusive complex.

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, vegetable protein isolate*, maize, vegetable fibres, rice, animal fats, hydrolysed animal proteins, wheat, maize flour, maize gluten, beet pulp, yeasts and parts thereof, minerals, soya oil, fish oil, fructo-oligosaccharides, psyllium husks and seeds (0.5%).

*LIP: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 25000 IU, Vitamin D3: 1000 IU, E1 (Iron): 32 mg, E2 (Iodine): 3.2 mg, E4 (Copper): 10 mg, E5 (Manganese): 42 mg, E6 (Zinc): 88mg, E8 (Selenium): 0.05 mg - Preservatives - Antioxidants.

CARE

HAIR&SKIN

Adult cats - Supports a healthy skin and shiny coat

[Available in 400g - 2kg - 4kg - 10kg]

PROVEN RESULTS
IN **21** DAYS
HEALTHY SHINY COAT
VISIBLE EFFECT

● AMINO ACIDS & VITAMINS
● OMEGA 3 & 6

Skin cells are constantly being renewed and have significant nutritional needs. Some cats have sensitive skin as evidenced by poor coat condition, which can be supported by a proper nutritional balance.

HAIR & SKIN CARE is a precisely balanced nutritional formula which helps maintain skin and coat health.

Formulated with:

- An exclusive complex of nutrients which helps support the skin's barrier role.
- High quality proteins with specific amino acids help promote healthy hair growth and skin renewal.
- Omega-3 and Omega-6 fatty acids for their beneficial effects on skin health and coat condition.

PROVEN RESULTS

The exclusive use of **HAIR & SKIN CARE** brings a significant improvement in coat shine after 21 days*.

*Royal Canin internal study, 2006.

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, animal fats, vegetable protein isolate*, rice, vegetable fibres, maize, hydrolysed animal proteins, wheat, yeasts and parts thereof, maize flour, maize gluten, beet pulp, soya oil, fish oil, minerals, borage oil, marigold extract (source of lutein).

*LIP: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 26000 IU, Vitamin D3: 700 IU, E1 (Iron): 37 mg, E2 (Iodine): 3.7 mg, E4 (Copper): 11 mg, E5 (Manganese): 48 mg, E6 (Zinc): 102 mg, E8 (Selenium): 0.06 mg - Preservatives - Antioxidants

CARE

DIGESTIVE

Adult cats - Helps support healthy digestion

[Available in 400g - 2kg - 4kg - 10kg]

PROVEN RESULTS
-49%
 LESS FAECES
 IN 10 DAYS

- HIGHLY DIGESTIBLE PROTEINS
- PREBIOTICS & PSYLLIUM

A sensitive stomach and digestive tract may result in a large quantity of poor quality faeces which may also indicate poor digestion. Additionally, swallowing too quickly without sufficient chewing can lead to regurgitation.

DIGESTIVE CARE is a precisely balanced nutritional formula which helps support digestive health.

With double action:

● **Easy to digest:** the **DIGESTIVE CARE** formula contains highly digestible proteins (L.I.P.*). It is based on a blend of prebiotics (FOS: fructo-oligo-saccharides) and fibres (including psyllium) to help support a balance in the intestinal flora and regulate intestinal transit.

● **Promotes chewing and slower eating:** the **DIGESTIVE CARE** ring-shaped kibble helps the cat eat more slowly and chew thoroughly for good digestion.

L.I.P.: protein selected for its very high digestibility (more than 90%), for digestive health and stool quality.

PROVEN RESULTS

The exclusive use of **DIGESTIVE CARE** is effective after 10 days: 49%* less stool production thanks to improved digestion and nutrient absorption.

*Royal Canin internal study, 2014 - Compared to a maintenance feed for adult cats.

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Vegetable protein isolate*, wheat flour, dehydrated fish, rice, animal fats, dehydrated poultry protein, hydrolysed animal proteins, maize gluten, maize flour, vegetable fibres, chicory pulp, minerals, soya oil, fish oil, fructo-oligo-saccharides (0.3%), psyllium husks and seeds (0.2%).

*LIP: protein selected for its very high assimilation.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 18000 IU, Vitamin D3: 900 IU, E1 (Iron): 42 mg, E2 (Iodine): 4.2 mg, E4 (Copper): 13 mg, E5 (Manganese): 54 mg, E6 (Zinc): 114 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

CARE

ORAL

Adult cats - Helps reduce tartar formation

[Available in 400g - 1,5kg - 3,5kg - 8kg]

Tartar build-up is the mineralization of dental plaque in contact with saliva, which can lead to sensitive gums. Oral hygiene plays an important role in your cat's overall health.

ORAL CARE is a precisely balanced nutritional formula which helps support oral health by reducing the formation of dental plaque.

With double action:

● **Mechanical action:** Specifically designed for a targeted action, the **ORAL CARE** kibble size, texture and shape encourages the cat to chew thoroughly. This mechanical action produces a daily tooth brushing effect that helps reduce the formation of dental plaque on teeth.

● **Chemical action:** formula enriched with an "Active Dental Agent" (calcium chelators) which traps the salivary calcium to help limit dental plaque mineralization.

PROVEN RESULTS

The exclusive use of **ORAL CARE** is effective after 28 days: up to 59%* reduction in tartar formation.

*Royal Canin internal study, 2005 - Compared to a control feed for adult cats not containing the Oral Care active components and measured on the most vulnerable teeth.

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, maize, vegetable protein isolate*, animal fats, maize flour, vegetable fibres, hydrolysed animal proteins, wheat, maize gluten, minerals, beet pulp, fish oil, fructo-oligo-saccharides, soya oil, psyllium husks and seeds.

*LIP: protein selected for its very high digestibility

ADDITIVES (PER KG)

Tailor-made Nutrition for Pure Breed Cats

FELINE BREED NUTRITION

EVERY BREED HAS UNIQUE NEEDS

Just one glance tells you how **different** and **incredible** breed cats are. Some impress with their coat, others their stature or temperament. Each has her own features which **result in specific nutritional needs**.

BRINGING OUT THE BEST IN EACH BREED!

These details inspired our range of breed-exclusive formulas, tailor-made for their individual needs and based on over 45 years of close partnership with a network of breeders, veterinarians and experts worldwide.

FELINE BREED NUTRITION offers each breed a **specially designed kibble shape and texture** adapted to its **unique jaw structure** and **eating habits**, along with perfectly balanced nutrients, in an **exclusive formula** suiting their health sensitivities. **A concentration of technical expertise created to maintain their health, beauty, vitality and well-being everyday.**

**WE HAVE XX CAT
BREED FORMULAS.
AND A REASON FOR
EVERY ONE.**

FOR EACH BREED

Tailor-made kibble

EXCLUSIVE FORMULA

EVEN THE WAY YOUR BREED EATS IS SOMETHING SPECIAL.

Pure breeds have different muzzle lengths, jaw structures and biting patterns that affect the way they pick up and chew their kibbles. **That's why each ROYAL CANIN® FELINE BREED NUTRITION formula has its own exclusive kibble size, shape, texture and density.**

TEXTURE

Some kibbles are designed to take longer to break than others, depending on the size and jaw strength of the breed.

SHAPE AND SIZE

Each kibble is designed to be the best shape and size for the breed's jaw and mouth size to ensure the kibble is easy to pick up and chew.

DENSITY

Kibbles are designed around each breed's rate of ingestion and caloric needs.

**TAILOR-MADE NUTRITION
ALSO IN WET!**

INCREDIBLE IN EVERY DETAIL

KITTEN

Persian

KITTEN Persian - Up to 12 months old

EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL BRACHYCEPHALIC JAW

This specially designed **tiny rectangular** kibble with a soft texture is easy for the Persian kitten to pick up and chew.

[Available in 400g - 2kg - 4kg - 10kg]

During growth, the Persian kitten develops a long, dense and silky coat, the hallmark of the breed.

HEALTHY GROWTH & LONG HAIR

With adapted protein content, and precisely balanced vitamins and minerals (including calcium and phosphorus) to help support healthy growth while contributing to healthy skin and a beautiful coat.

DIGESTIVE PERFORMANCE

Highly digestible protein (L.I.P.*), an adapted fibre content (including psyllium) and prebiotics to help support a balance in the intestinal flora.

*Protein selected for its very high digestibility.

IMMUNE SYSTEM SUPPORT

A patented complex* of antioxidants, including vitamin E, helps support the kitten's natural defences.

*France, patent N° EP1146870.

L.I.P.

Selected protein with digestibility over 90%.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, animal fats, maize, vegetable protein isolate*, hydrolysed animal proteins, vegetable fibres, beet pulp, yeasts and parts thereof, fish oil, soya oil, minerals, psyllium husks and seeds (0.5%), fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), yeasts extracts (source of betaglacans), borage oil, marigold extract (source of lutein).

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Vitamin A: 32000 IU, Vitamin D3: 900 IU, Vitamin E: 650 mg; E1 (Iron): 33 mg, E2 (Iodine): 3.4 mg, E4 (Copper): 10 mg, E5 (Manganese): 44 mg, E6 (Zinc): 128 mg, E8 (Selenium): 0.07 mg - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

ADULT Persian - Over 12 months old

Tailor-made kibble

 EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL BRACHYCEPHALIC JAW

 This specially designed **almond-shaped** kibble with an optimal contact surface area is easy for the Persian cat to pick up and chew.

[Available in 400g - 2kg - 4kg - 10kg]

A long, luxurious coat, with a dense undercoat, is the hallmark of the Persian cat.

LONG HAIR HEALTH

An exclusive complex of nutrients helps support the skin's "barrier" role, and helps maintain skin health and coat beauty. Enriched with Omega 3 and Omega 6 fatty acids.

HAIRBALL REDUCTION

A specific blend of fibres (including psyllium rich in mucilage) helps to naturally stimulate intestinal transit, eliminate ingested hair and control hairball formation.

DIGESTIVE PERFORMANCE

Highly digestible protein (L.I.P.*) and prebiotics to help support a balance in the intestinal flora.

*Protein selected for its very high digestibility.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, animal fats, rice, vegetable protein isolate*, maize flour, vegetable fibres, hydrolysed animal proteins, maize gluten, wheat flour, maize, yeasts and parts thereof, minerals, chicory pulp, fish oil, psyllium husks and seeds (1%), soya oil, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein).

*L.I.P.: protein selected for its very high digestibility.

ADULT

British
Shorthair

ADULT British Shorthair - Over 12 months old

[Available in 400g - 2kg - 4kg - 10kg]

Tailor-made
kibbleEXCLUSIVE FORMULA
L-carnitine & Taurine

SPECIAL BRITISH SHORTHAIK JAW

This specially designed **large curvy-shaped** kibble is adapted to the British Shorthair cat's broad jaw. The unique kibble facilitates grasping and encourages chewing to help **support oral hygiene**.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, rice, vegetable protein isolate*, animal fats, maize, maize gluten, vegetable fibres, hydrolysed animal proteins, chicory pulp, fish oil, soya oil, minerals, yeasts and parts thereof, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Nutritional additives: Vitamin A: 31000 IU, Vitamin D3: 800 IU, E1 (Iron): 40 mg, E2 (Iodine): 4 mg, E4 (Copper): 12 mg, E5 (Manganese): 51 mg, E6 (Zinc): 154 mg, E8 (Selenium): 0,08 mg, L-carnitine: 200 mg, Taurine: 2,6 g - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

The British Shorthair cat has a sturdy, heavy and muscular body.

MUSCLE TONE

An adapted level of protein contributes to maintaining muscle mass.

Enriched with L-carnitine, involved in healthy fat metabolism.

BONE & JOINT HEALTH

Formulated to support healthy bones and joints. Enriched with Omega 3 fatty acids (EPA and DHA).

CARDIAC HEALTH

Taurine, EPA and DHA to help maintain healthy cardiac function.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

Helps maintain skin and coat health.

HEALTHY URINARY SYSTEM

Helps support a healthy urinary system.

Maine Coon

KITTEN Maine Coon - Up to 15 months old

[Available in 400g - 2kg - 4kg - 10kg]

*Tailor-made
kibble*

EXCLUSIVE FORMULA
Calcium & Phosphorus

SPECIAL LARGE JAW

This specially designed **cube-shaped kibble** is adapted in size and texture to the large jaw of the Maine Coon kitten. The unique kibble encourages chewing to **help support oral hygiene**.

Growth for the Maine Coon kitten is exceptionally long, laying down the framework for the breed's unique large stature.

HEALTHY LONG GROWTH PERIOD

With adapted energy and protein content, and precisely balanced vitamins (including vitamin D) and minerals (including calcium and phosphorus) to help support healthy bone and joint development for balanced growth.

DIGESTIVE HEALTH

Highly digestible protein (L.I.P.*) and prebiotics to help support a balance in the intestinal flora.

*Protein selected for its very high digestibility.

IMMUNE SYSTEM SUPPORT

A patented complex* of antioxidants, including vitamin E, helps support the kitten's natural defences.

*France, patent N° EP1146870.

L.I.P.

Selected protein with digestibility over 90%.

INGREDIENTS

COMPOSITION

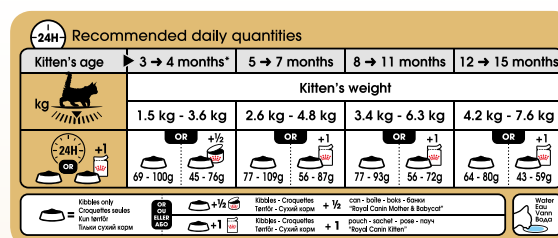

Dehydrated poultry protein, animal fats, rice, vegetable protein isolate*, maize, wheat flour, hydrolysed animal proteins, vegetable fibres, beet pulp, yeasts and parts thereof, fish oil, soya oil, fructo-oligo-saccharides, psyllium husks and seeds, minerals, hydrolysed yeast (source of manno-oligo-saccharides), yeasts extracts (source of betaglucons), borage oil, marigold extract (source of lutein), hydrolysed crustaceans (source of glucosamine), hydrolysed cartilage (source of chondroitin).

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Vitamin A: 34000 IU, Vitamin D3: 900 IU, vitamin E: 690 mg;
E1 (Iron): 31 mg, E2 (Iodine): 3.1 mg, E4 (Copper): 10 mg,
E5 (Manganese): 41 mg, E6 (Zinc): 121 mg, E8 (Selenium): 0.06 mg
- Technological additives: Clinoptilolite of sedimentary origin:
10 g - Preservatives - Antioxidants.

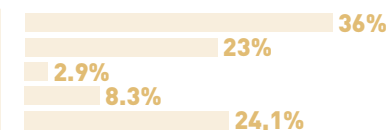

FEEDING GUIDELINES

**For kittens from weaning to 3 months old,
we recommend "ROYAL CANIN® MOTHER&BABYCAT"*

ADULT

Norwegian Forest Cat

ADULT Norwegian Forest Cat - Over 12 months old

[Available in 400g - 2kg - 10kg]

EXCLUSIVE FORMULA
Borage oil & L-carnitine

SPECIAL NORWEGIAN JAW

This specially designed **three-branched kibble** is adapted to the Norwegian Forest Cat's strong jaw. The unique kibble encourages chewing to **help reduce the rate of food intake**.

The Norwegian Forest Cat's thick coat consists of a water-repellent upper coat and a woolly thick undercoat for insulation.

HEALTHY SKIN & COAT

An exclusive complex of nutrients helps support the skin's "barrier" role and maintain skin health and coat condition.

Enriched with Omega 3 and Omega 6 fatty acids.

HAIRBALL REDUCTION

A specific blend of fibres helps to naturally stimulate intestinal transit, eliminate ingested hair and control hairball formation.

IDEAL WEIGHT & JOINT HEALTH

An adapted formula helps maintain ideal weight while helping to support bones and joints.

Enriched with L-carnitine, involved in healthy fat metabolism.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, maize, rice, vegetable protein isolate*, animal fats, wheat, vegetable fibres, wheat flour, hydrolysed animal proteins, maize gluten, chicory pulp, fish oil, minerals, soya oil, psyllium husks and seeds, yeasts and parts thereof, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil (0,1%), hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

*L.I.P.: protein selected for its very high digestibility.

ADULT Siberian - Over 12 months old

[Available in 400g - 2kg]

*Tailor-made
kibble*

EXCLUSIVE FORMULA
Omega 6 & EPA-DHA

SPECIAL SIBERIAN JAW

This specially designed **round-shaped** kibble is adapted to the Siberian cat's full-rounded muzzle. The unique kibble encourages chewing to **help support oral hygiene**.

The Siberian cat has a unique, "weather-proof" triple coat with a very dense undercoat and a slightly harsher water-repellent top coat.

HEALTHY SKIN & COAT

Contains a combination of specific nutrients including amino acids, vitamins, Omega 3 and Omega 6 fatty acids to help maintain a healthy skin and shiny coat.

BONE & JOINT HEALTH

Formulated to support healthy bones and joints. Enriched with EPA and DHA.

HAIRBALL REDUCTION

A specific blend of fibres helps to naturally stimulate intestinal transit, eliminate ingested hair and control hairball formation.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, vegetable protein isolate*, rice, cereal flour, animal fats, vegetable fibres, hydrolysed animal proteins (flavors), soya oil, minerals, fish oil, yeasts and parts thereof, fructo-oligo-saccharides, psyllium husks and seeds, borage oil, marigold extract (source of lutein), hydrolysed crustaceans (source of glucosamine), hydrolysed cartilage (source of chondroitin).

*L.I.P.: protein selected for its very high digestibility.

ADULT

Ragdoll

ADULT Ragdoll - Over 12 months old

[Available in 400g - 2kg - 10kg]

*Tailor-made
kibble*

EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL RAGDOLL JAW

This specially designed **pyramid-shaped** kibble is adapted to the Ragdoll cat's broad jaw. The unique kibble is easy to grasp and encourages chewing to **help support oral hygiene**.

The soft, silky, semi-longhaired coat is one of the Ragdoll cat's nicest features.

HEALTHY SKIN & COAT

Contains a combination of specific nutrients including amino acids, vitamins, Omega 3 and Omega 6 fatty acids to help maintain a healthy skin and nourish the coat.

CARDIAC HEALTH

Taurine, EPA and DHA to help maintain healthy cardiac function.

BONE & JOINT HEALTH

Formulated to support healthy bones and joints. Enriched with EPA and DHA.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS

COMPOSITION

Dehydrated poultry protein, maize, animal fats, vegetable protein isolate*, wheat, maize gluten, rice, hydrolysed animal proteins, vegetable fibres, wheat flour, chicory pulp, minerals, fish oil, soya oil, yeasts and parts thereof, fructo-oligo-saccharides, psyllium husks and seeds, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), hydrolysed cartilage (source of chondroitin).

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (PER KG)

Vitamin A: 31000 IU, Vitamin D3: 800 IU, E1 (Iron): 40 mg, E2 (Iodine): 4 mg, E4 (Copper): 12 mg, E5 (Manganese): 51 mg, E6 (Zinc): 154 mg, E8 (Selenium): 0,08 mg, Taurine: 2,66 g - Technological additives: Clinoptilolite of sedimentary origin: 10 g - Preservatives - Antioxidants.

ADULT Ragdoll - Over 12 months old

INCREDIBLE IN EVERY DETAIL

ADULT

Siamese

*Tailor-made
kibble*

EXCLUSIVE FORMULA
Omega 6 fatty acids & L-carnitine

SPECIAL SIAMESE JAW

This specially designed **tube-shaped** kibble is easy for the narrow and long Siamese cat muzzle to grasp. This unique kibble encourages chewing to **help reduce the rate of food intake**.

[Available in 400g - 2kg - 4kg - 10kg]

The Siamese has an elegant and athletic silhouette.

LEAN MUSCULAR BODY

An increased level of proteins (38%) and a moderate fat level (16%) help preserve a long, slender and muscular body.

Enriched with L-carnitine, involved in healthy fat metabolism.

DIGESTIVE HEALTH

Highly digestible protein (L.I.P.*) and prebiotics to help support a balance in the intestinal flora.

**Protein selected for its very high digestibility.*

HEALTHY GLOSSY COAT

Specific amino acids, vitamins, Omega 3 and Omega 6 fatty acids to help maintain a healthy skin and shiny coat.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

ADULT Siamese - Over 12 months old**INGREDIENTS****COMPOSITION**

Dehydrated poultry protein, vegetable protein isolate*, maize, wheat, animal fats, maize gluten, rice, hydrolysed animal proteins, beet pulp, minerals, fish oil, yeasts and parts thereof, fructo-oligo-saccharides, soya oil, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein).

**L.I.P.: protein selected for its very high digestibility.*

ADULT

Sphynx

ADULT Sphynx - Over 12 months old

EXCLUSIVE FORMULA
Omega 3 & Omega 6 fatty acids

SPECIAL SPHYNX JAW

This specially designed **thick triangular-shaped** kibble, adapted to the Sphynx cat's jaw, encourages chewing to **help support oral hygiene**.

[Available in 400g - 2kg - 10kg]

To compensate for the absence of hair, the Sphynx has a very active metabolism to control body temperature.

HIGH ENERGY INTAKE

A high calorie formula with a high level of fat (23%) to meet the greater energy needs of this hairless cat.

**HEALTHY SKIN SUPPORT**

An exclusive complex of nutrients helps support the skin's "barrier" role. Enriched with Omega 3 and Omega 6 fatty acids for their support in skin health.

**CARDIAC HEALTH**

Taurine, EPA and DHA to help maintain healthy cardiac function.

**URINARY HEALTH**

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

INGREDIENTS**COMPOSITION**

Dehydrated poultry protein, animal fats, rice, vegetable protein isolate*, maize gluten, vegetable fibres, maize, dehydrated pork protein*, hydrolysed animal proteins, wheat, beet pulp, yeasts and parts thereof, fish oil, minerals, dried tomato pulp (source of lycopene), soya oil, fructo-oligo-saccharides, hydrolysed yeast (source of manno-oligo-saccharides), borage oil, marigold extract (source of lutein).

*L.I.P.: protein selected for its very high digestibility.

ADDITIVES (PER KG)

The Bengal cat can have a sensitive digestive system.

DIGESTIVE PERFORMANCE

Highly digestible protein (L.I.P.*) to support healthy digestion, an adapted fibre content and prebiotics to support a balance in the intestinal flora.

*Protein selected for its very high digestibility.

ATHLETIC CONDITION

An adapted ratio of a high level of protein (40%) and adapted fat content (18%) to contribute to maintaining muscle mass.

HEALTHY GLOSSY COAT

Specific amino acids, vitamins, Omega 3 and Omega 6 fatty acids to help maintain a healthy skin and shiny coat.

URINARY HEALTH

Formulated with a balance of minerals to help maintain the health of an adult cat's urinary system.

ADULT

American
Shorthair

ADULT American Shorthair - Over 12 months old

[Available in 400g - 2kg - 10kg]

EXCLUSIVE FORMULA
Moderate fat & L-carnitineSPECIAL AMERICAN
SHORTHAIK JAW

This specially designed **crescent-shaped** kibble, adapted in size and texture to make it easier for the American Shorthair's medium-short muzzle to grasp. The unique kibble encourages chewing to **help support healthy oral hygiene**.

INGREDIENTS

COMPOSITION

Meat (chicken, turkey), maize, vegetable protein isolate*, animal fats, maize gluten, rice, wheat, vegetable fibres, hydrolysed proteins (chicken, turkey), wheat flour, chicory pulp, fish oil (source of omega 3 fatty acids), soya oil (source of omega 6 fatty acids), yeasts and extracts, fructo-oligo-saccharides, borage oil, marigold extract (source of lutein), amino acids (DL-methionine, L-lysine, taurine, L-carnitine), zeolite, minerals (Cl, Ca, K, Na, Zn, Mn, Fe, Cu, I, Se), vitamins (A, choline, D3, inositol, E, niacin, C, calcium pantothenate, B6, B2, B1, folic acid, biotin, B12), antioxidants (BHA, propyl gallate).

*L.I.P.: very highly digestible proteins (digestibility over 90%).

Nb: Based on Japan Formula declaratives.
