- DAY 4**
Put 100% of their portion of the new food on your pet's plate.

When to transition from puppy to adult food.

Appropriate Weight in My Pet

- UNDER WEIGHT**
The waist is slim and the ribs bulging. You cannot see the abdomen, it is extremely contracted.
- IDEAL**
The waist is slightly thinner than the ribs. The abdomen is slightly appreciated, it is slightly contracted.
- OVERWEIGHT**
The waist is at the same level as the ribs and these are not distinguishable. Straight and swollen abdomen.
- OBESITY**
Waist not visible or protruding from the ribs. Very swollen and protruding abdomen.
